Pratiman Patel | PhD Scholar
Climate Studies | IIT Bombay
Email-id/Skype : **pratiman_patel@hotmail.com**

ACADEMIC DETAILS

Examination	University	Year	CPI/%
Doctor of Philosophy	Indian Institute of Technology, Bombay, India	2020 (Expected)	-
Master of Technology: *Remote Sensing & GIS (Water Resources)*	Indian Institute of Remote Sensing, Dehradun, India	2015	8.00/10.0
Bachelor of Technology: *Agricultural Engineering*	College of Agricultural Engineering, Jabalpur, India	2013	8.10/10.0

FIELDS OF INTEREST

- Numerical weather prediction, Extreme precipitation forecast, Local Climate Zones, Land surface feedback, Remote sensing, Geographic information system

TECHNICAL SKILLS

- **Languages:** Python, R, NCL
- **Models:** Weather Research & Forecasting (WRF) Model, HEC-HMS, HEC-RAS, MIKE11
- **Softwares:** ArcGIS, QGIS, ERDAS, SAGA-GIS
- **Extra:** High Performance Computing, Bash, LaTeX, MS Office

FELLOWSHIP

- Overseas Visiting Doctoral Fellow (OVDF) at Purdue University, USA (2019-2020)

RESEARCH PROJECTS

- **Rainfall Forecasting through Regional Weather Modelling: An Application to Near Real-Time Flood Forecasting** (Ph.D. Research Project)
  (Supervisor:Prof. Subhankar Karmakar , Co-Supervisor: Prof. Subimal Ghosh , July'15 - till date)
  - Selection of physics schemes of **WRF model** for flood forecasts in a coastal urban environment
  - Generation and evaluation of **Local Climate Zones** in WRF model for rainfall events
  - Effect of **green roofs** in the simulation of rainfall using WRF model.
- **Flood Simulation using Weather Forecast and Hydrological Models** (M.Tech Research Project)
  (Supervisor: Dr. Praveen K. Thakur , Co-Supervisor: Dr. S.P. Aggarwal , July'14 - July'15)
  - An experimental setup for **early flood warning system** in North Western Himalaya.
  - Selection of suitable parameterization of WRF model for precipitation forecasting.
  - Set-up and **calibrated hydrological model (HEC-HMS**) for generating the initial and lateral boundary conditions for the estimation of water levels **hydrodynamic model (MIKE11)**.
- **Selection of potential sites for water harvesting structure in Jabalpur district using Remote Sensing & GIS** (B.Tech Major Project)
  (Supervisor: Dr. Bhaskar R. Nikam , Co-Supervisor: Dr. S.P. Aggarwal , January'13 - May'13)
  - Identification of suitable sites for water harvesting structure (check dams) using remote sensing and geographic information system.
  - Multi-criterion decision based on Integrated Mission for Sustainable Development guidelines.
- **Land use/ Land Cover change detection of Jabalpur block using Remote Sensing and GIS technique**(B.Tech Major Project)
  (Supervisor: Dr. S.K. Sharma , July'12 - December'12)
  - Unsupervised classification applied to classify IRS-P6 (LISS-3) imagery. Change detection of thematic layers was performed to quantify the changes in the LULC.

SPOKEN LANGUAGES

- Hindi (Mother Tongue)
- English

MEMBERSHIP

- American Geophysical Union
- IEEE Geoscience and Remote Sensing Society
- European Geosciences Union
- Associate Member of Institution of Engineers (A.M.I.E.)
